LIVE LONG WELL
572/575 CHRISTINA BOLLO
This is a health & wellbeing and comprehensive studio.

You will design a multifamily housing project suitable for aging in place.
Work will be done in teams of two created by me.
Presentations are primarily digital, with a paper set of working drawings.
You will spend significant time working on elevations.

WHAT CAN I EXPECT?
BRONZEVILLE, CHICAGO
you will choose a surface parking lot in the northern portion of the Bronzeville neighborhood, just south of Mercy Hospital.
we will visit the site on the first Friday of the semester and you will make later visits to map and learn.

DESIGN FOR AGING
In this studio, you will design homes for older people, generally, and for a specific group of older people.

WHAT DOES IT MEAN TO BE OLD?
as part of the studio, you will volunteer in a local community specifically created for older people.

DESIGN WITH RESEARCH
we will integrate scholarship on seniors and housing into the design process. you will test your precedents against this research.

HOW TO COMPREHEND THE SITE?

HOW DO WE DESIGN FOR HEALTH?

- AIR
- WATER
- NOURISHMENT
- LIGHT
- MOVEMENT

- THERMAL COMFORT
- SOUND
- MATERIALS
- MIND
- COMMUNITY

you will use the well building standard to guide your decisions. the standard is evidence-based, health-driven and equitable. https://v2.wellcertified.com
